ABOUT COPING...

COPING is a community support group composed of loving, caring volunteers who have experienced grief in their own personal lives and who now companion others on their grief journey.

For over 33 years COPING has provided practical and emotional support to bereaved families as they journey through the process of grief. Various groups exist to reach the needs of all age groups ranging from children to the elderly. COPING is a registered non-profit charitable organization.

The COPING Centre provides a place of shelter for those who need a safe place during their mourning, excellent resources to aid those who are on a difficult journey and educational opportunities for the caregiver community.
